I am,

Your obedient Servant,

REPORT

OF THE

INTERMEDIATE EDUCATION BOARD FOR IRELAND FOR THE YEAR 1920.

TO HIS EXCELLENCY EDMUND BERNARD,
VISCOUNT FITZ ALAN OF DERWENT,

LORD LIEUTENANT-GENERAL AND GENERAL GOVERNOR OF IRELAND.

MAY IT PLEASE YOUR EXCELLENCY,

We, the Commissioners of Intermediate Education (Ireland), submit to your Excellency this our Forty-second Report.

The number of schools which consented to inspection under the rules of the Board for the school year 1919-20 was 356, being a decrease of 6 on the number for the previous school year.

Six of these schools either withdrew or failed to satisfy the definition of school in the Board's rules and were, accordingly, ineligible to share in any grant payable by the Board in respect of work done during the school year 1919-20. Five others were refused recognition under the rules relating to the Additional Parliamentary Grant. This grant, and the Teachers' Salaries Grant which forms the subject of a separate report, are, in accordance with the rules hitherto in force, payable in the financial year ending 31st March in respect of the work done in the school year last completed before that date.

The following table shows the number of schools, as classified, and the number of pupils between the ages of 12 and 19 on 1st October, 1919, on the rolls of the schools on that date.

FINANCE.

We wish again to draw Your Excellency's most serious attention to the utter inadequacy of both our statutory and voted incomes to meet the legitimate demands for the promotion of Secondary Education in Ireland.

STATUTORY INCOME.

The income derived from our statutory funds varies very slightly each year, and may be stated to amount approximately to £85,000 per annum. All the expenses of administration, inspection, and examination have to be defrayed out of this fixed income before a penny can be awarded to a student or paid as a grant to a school. These administrative expenses have, owing to economic conditions caused by the late war and to the serious additional duties thrown upon us in recent years, increased out of all proportion to what was contemplated by Parliament when our income was originally provided. We are satisfied that every effort has been, and will continue to be, made, to secure the utmost economy, consistent with efficiency, in the administration of the functions which we are called upon to discharge, but we would remind Your Excellency that the abnormal encroachments upon our scanty funds are due to circumstances over which we have absolutely no control. In other Government departments

whose administrative expenses are defrayed by Parliament, this fact has been recognised and admitted by His Majesty's Government, and the situation has been met by adequate increases in the votes. No such financial assistance, however, has been extended to us, and the inevitable result has been that the residue of our statutory income available for rewards to students and grants to schools has seriously diminished. When we came to allocate the available funds amongst the three grants paid to schools in December last, we found ourselves faced with a deficit, as compared with 1919, of over £5,000, while at the same time we were fully cognisant of the desperate financial plight of the great majority of the secondary schools. We felt that, under the circumstances, it would have been disastrous to reduce the annual grants by this amount; and were therefore reluctantly compelled to encroach upon our permanent financial resources, and to make good the deficit by transfers from Capital funds. The inevitable result of this will be a further shrinkage in our income for 1921, but we felt that the position of the schools was too acute to justify us in pursuing the more conservative financial policy of keeping our expenditure within the limits of our income.

VOTED INCOME.

In addition to the Teachers' Salaries Grant of £40,000 and the Additional Grant of £50,000, we received from Parliament during the year a further grant, called the Interim Grant, of £50,000, which was distributed by us in accordance with rules made by Your Excellency's predecessor on 3rd August, 1920. We beg to draw Your Excellency's attention to the fact that in our Report for 1919, made before the Interim Grant was given, we stated that, if the definite promise made in 1918 by the then Solicitor-General for Ireland on behalf of His Majesty's Government was fulfilled, we would be entitled, as a matter of elementary justice, to arrears of the equivalent of grants to English and Scottish Education amounting in the aggregate to £140,000. This claim on our part to participate in the increased financial provisions for education in Great Britain has, so far as we are aware, never been repudiated or denied by His Majesty's Government. In fact, it has been tacitly admitted, but only partially discharged, by the issue of the Interim Grant already referred to. Our claim for £140,000 was, therefore, met by a Grant of only £50,000.

It is to be noted that this sum of £140,000 was merely the amount necessary to redeem, up to the end of the financial year 1920-21, the definite promise to which reference has been made. It is very far short of the real sum which is, we believe, due on any equitable basis from the Treasury for the purposes of Irish Secondary Education.

In our Report for the year 1916 we gave an estimate of the amount which Irish Secondary Education ought to receive annually from the Treasury, in addition to its existing funds, if it

was to be treated fairly as compared with Secondary Education in England and Scotland. Our estimate was £60,000 plus the administrative expenses. None of this has ever been granted, for the additional Grant first made in March, 1918, was given as the equivalent of the large extra grants made for English Secondary Education after our Report appeared, so that in addition to the sum necessary to redeem the promise of the then Solicitor-General a further sum of approximately £100,000 a year is due on any equitable basis, and in fact arrears of this are due for many years.

It is further to be noted that when the financial year 1921-22 is taken into account the sum necessary to redeem the Solicitor-General's promise has to be increased by the proper proportion of the increases estimated for English Secondary Education for the present year. The amount, therefore, up to the end of the present financial year would be approximately £230,000, less £100,000 of Interim Grants, or in all £130,000, after the Interim Grant in the present year has been distributed.

Looking back over the period of forty-two years which have elapsed since we, as a Corporate Body, were established by Parliament, and remembering the innumerable difficulties which have had to be faced and overcome before the various educational interests in this country came to recognise and accept our scheme as an absolutely impartial effort to promote the true interests of secondary education; remembering also the scanty funds with which our admittedly successful efforts were achieved, it is difficult for us at this juncture—when the whole edifice of secondary education in Ireland is toppling to destruction—to refer to these matters in language of moderation and restraint. Of one thing, however, we feel quite certain, and that is that if something is not done immediately to place Irish secondary education in the position of financial equality with that of Great Britain, it is impossible to see how the complete disruption of the system can be avoided.

APPENDIX II.

THE BURKE MEMORIAL PRIZES.

A SUM of money, subscribed in memory of the late THOMAS HENRY BURKE, Esq., Under Secretary to the Lord Lieutenant, was transferred by the Burke Memorial Committee, on 18th March, 1884, to the Intermediate Education Board for Ireland, who undertook to administer in accordance with the following Rules (the sum funded is £1,232 13s. 5d. Consols):—

I. The annual income from the fund shall be applied in paying three Prizes, one of £16, one of £10, and a second of £10; any surplus or deficiency to be apportioned in the same ratio. If, in the opinion of the Commissioners, sufficient merit be not shown by the Candidates competing to justify the award of any or either of the Prizes, the amount of such Prize may be, at the discretion of the Board, withheld and added to the principal.

II. No student shall be qualified to receive these Prizes except the children of persons who are, or have been, in receipt of salary or pension in Ireland, paid out of money derived from Parliamentary Grants, Rates or Taxes, other than members of the Naval or Military Services not being also in Civil employment.

III. The Prizes shall be awarded as follows:—that of £16 to the Boy whom, at the annual Examination in the Junior Grade among Male Candidates qualified in the manner expressed in the next preceding Rule, the Board shall adjudge to be the best answerer; One Prize of £10 to the Boy whom, in the same Grade at such Examination, the Board shall adjudge to be the next best answerer; and the other of £10 to the Girl whom, at such Examination in the same Grade, among Female Candidates qualified in the manner aforesaid, the Board shall adjudge to be the best answerer.

IV. The decision of the Board shall be final and decisive in determining whether the Candidates fulfil the conditions of the third Rule.

V. The Board may deduct all expenses connected with the trust from the yearly income.

APPENDIX III.

Extract from Scheme framed under the Educational Endowments (Ireland) Act, 1885, for the future government and management of

THE CHARLEVILLE ENDOWMENT.

* * * * *

4. The arrears and accumulations of the Endowments, due at the date of this Scheme, shall be invested by the Board in such securities as they may think fit, and shall constitute part of the capital of the Endowment. The net annual income of the Endowment, after providing for any necessary outgoings, shall be paid or distributed in each calendar year commencing after the date of this Scheme, by the Board, at such time as the Board shall think fit, to or among the School or Schools situated in the Charleville District which shall be entitled, in the same year, to receive from the Board Results Fees for Pupils; and the distribution shall be made in the same proportions in which such Results Fees shall have been awarded. Provided that no School shall receive, in any year, from the Endowment, more than Six Pounds in respect of each pupil of the School who shall have passed the Examinations of the Board for that year. If in any year any part of the net annual income of the Endowment shall remain over, after provision shall have been made for the payments hereinbefore authorized, such part shall be carried forward, and may be dealt with as part of the income to be distributed in the following year, or may be further carried forward to the succeeding year, as the Board may think fit. If any question shall arise as to the amount payable as aforesaid, or as to the qualification of any School, or as to the division or distribution of the income aforesaid, the decision of the Board on every such question shall be final.

If from want of qualified Schools situated in the Charleville District, or from want of a sufficient number of pupils passing the Examinations of the Board, or from any other cause, the amount carried forward as aforesaid shall at any time amount to £50, the whole or any part of this sum may be offered by way of Exhibitions or Prizes for competition, in the succeeding year, among the pupils coming up to the Examinations of the Board from the Charleville District, or failing a sufficient number of these, among the pupils coming up to the Examinations of the Board from the Counties of Cork, Limerick, and Tipperary, in such manner, and subject to such conditions, as the Board shall from time to time determine, or may be invested and added to the capital of the Endowment, and the income thereof may be added to the net annual income of the Endowment, as the Board may think fit.
